			50gm tube
			50 gm dispenser

Compared to other topical NSAIDs, **FASTUM gel**: -

- Ensures an optimal penetration.
- Reaches the site of pain and inflammation in high concentrations.
- Is locally well tolerated without any systemic effects.
- Is preferred by patients.
- Provides precise posology (5cm = 40mg ketoprofen) if required.

FASTUM gel used by more than 30 million patients world-wide.
